Virgin European remy hair has never been colored or processed in any way, making it the healthiest hair available for hair additions. It can be colored, highlighted, and completely customized to easily match your customer’s hair.

Most remy hair is from China and India, therefore, it must be carefully bleached to match Caucasian hair.

Human hair collected from floor sweepings and brushes are processed in an acid wash to remove the cuticle. Without the protective layer, the hair becomes dry and matted.

Animal hair such as horse, yak, or goat can be used to bring down the cost of “natural wigs” but the texture is coarse and does not accept styling as well as human hair.

Synthetic hair is generally the most affordable but is the least realistic or natural looking, and cannot accept color or heat styling.

Invisi-Tab Hair Extensions are produced using only the finest quality Virgin European hair; unprocessed human hair procured all across Europe. We go to great lengths to ensure uncompromised quality with undeniable beauty, which is why Invisi-Tab was named New York Magazine’s “Best Hair Extensions”.

Because our hair has never been processed, it allows a high degree of color acceptance for you to color, bleach, and highlight to blend nicely and seamlessly with your preferred style. Since it is natural human hair, you can still perm, shampoo, condition, blow-dry, and use flat or curling irons.

Our keratin bonds with surgical adhesive tabs make applications trouble-free and won’t damage the existing hair. It’s a simple process that takes less than 30-minutes to apply a full head of hair extensions.

WHY INVISI-TAB?

FEEL THE DIFFERENCE! One touch is all it takes. Invisi-Tab Hair Extensions are produced using only the finest quality Virgin European hair; unprocessed human hair procured all across Europe. We go to great lengths to ensure uncompromised quality with undeniable beauty, which is why Invisi-Tab was named New York Magazine’s “Best Hair Extensions”.

GIVE IT A TRY AND YOU’LL SEE WHY!

HAIR QUALITY

Virgin European remy hair has never been colored or processed in any way, making it the healthiest hair available for hair additions. It can be colored, highlighted, and completely customized to easily match your customer’s hair.

Most remy hair is from China and India, therefore, it must be carefully bleached to match Caucasian hair.

Human hair collected from floor sweepings and brushes are processed in an acid wash to remove the cuticle. Without the protective layer, the hair becomes dry and matted.

Animal hair such as horse, yak, or goat can be used to bring down the cost of “natural wigs” but the texture is coarse and does not accept styling as well as human hair.

Synthetic hair is generally the most affordable but is the least realistic or natural looking, and cannot accept color or heat styling.
**TAPE-IN TABS**

Tape-in hair extension tabs are 1 ½” wide and have a keratin bond with surgical adhesive. They’re comfortable, lightweight, won’t damage hair, and are easily applied without extra tools, beads, or chemicals. A full head application can be done in less than 30 minutes. One package contains 40-pcs.

**MICRO-FOLD TABS**

Micro-fold tabs are 5/8” wide. They’re quick and easy as you would apply the tape-in tabs. The placement of micro-fold tabs are near the temple area, parietal ridge and crown areas for a more discreet look when hair is pulled back, in an up-do or adding high or low lights. One package contains 20-pcs.

**TOPPERS**

The toppers use the same comfortable tabs but are placed as a top layer to the tape-in with hand-knotted hair strands on top of each tab to look as though the hair is coming from the scalp, adding a little extra volume around the crown area for a beautiful voluminous finish. One package contains 20-pcs.

**CLIP-IN (FULL HEAD)**

The full head clip-in hair extension method is the fastest and most flexible way to add volume and length to hair. The clip-in application has pre-sewn snap clips that attach directly to existing hair and does not require any tools or chemicals. Extensions are easily applied and removed as needed. One package contains 7-pcs of various widths.

One package contains 7-pcs of various widths.
I-TIP

With I-Tip hair extensions, there’s no need for heat, glue, or any type of chemicals. The hair extensions are held in place with an aluminum bead, which secures the extensions without damaging the natural hair. The hair can be easily reused with HairArt micro-lock beads. One package contains 20-pcs.

FLAT-TIP

Flat-Tip (aka fusion) extensions are the classic hair application method which a keratin protein bond is fused to the natural hair, strand by strand, with a fusion melting connector. This method is gentle and natural looking. One package contains 20-pcs.

WHAT MAKES INVISI-TAB HAIR EXTENSIONS DIFFERENT?
Invisi-Tab hair extensions combine the best quality hair on the market with the most convenient application process. Our bonds are leased on one side and surgical adhesive on the other. They are guaranteed to stay for up to three months when they are safely removed with our organic remover.

WHAT MAKES IT THE BEST QUALITY HAIR ON THE MARKET?
Our virgin European hair is 100% unprocessed so that it looks and acts just like your own hair. This means that it stays soft and manageable and matted hair won’t occur after only a few washes.

CAN I COLOR INVISI-TAB HAIR EXTENSIONS?
Yes, absolutely! One of the best benefits of Invisi-Tab Hair Extensions is that they are 100% customizable because they are 100% human hair. You can apply a color service, highlights, low-lights, balayage, and a perm service. Remy hair takes a color deposit only. We do recommend that your stylist choose as close a color as possible to the desired hair color.

HOW LONG CAN I WEAR INVISI-TAB HAIR EXTENSIONS?
Generally, 8-12 weeks or up to 3 months, depending on the individual’s hair growth rate. This ensures that the extensions will continue to look fresh and close to the scalp. They should be removed by 3 months to ensure the extension bond remains seamless.

HOW MANY TABS ARE NEEDED TO DO A FULL HEAD?
It varies from person to person, depending on size and shape of head, however, 20-40 pieces of 1” tabs are generally enough for a full head.

FAQ’S

WHAT TYPE OF PRODUCTS CAN I USE WITH MY NEW HAIR?
Shampoo, condition, and style as usual. With Invisi-Tab, you can even use dry shampoo. The only product type we don’t recommend using are serums, as their oily texture makes hair slippery for the extensions.

CAN INVISI-TAB HAIR EXTENSIONS BE REUSED?
We recommend using new hair to ensure high quality, but because our hair is of such high quality, they can be re-applied up to three times.

HOW ARE THE TABS APPLIED?
Invisi-Tab Hair Extensions are easily applied simply by sandwiching a thin layer of hair between two tabs and press together. Each bond can be applied in under a minute and a full head can be done in about 30 minutes.

HOW ARE INVISI-TABS REMOVED?
We have our own organic remover that was designed specifically to remove our extensions and bonds without damaging natural hair. We do not endorse or warrant any other form of removal. Our organic remover comes in a 4-oz. spray bottle and safely breaks down the adhesive without damaging the hair.

### FAQ'S

**What makes Invisi-Tab Hair Extensions different?**

Invisi-Tab hair extensions combine the best quality hair on the market with the most convenient application process. Our bonds are keratin on one side and surgical adhesive on the other. They are guaranteed to stay for up to three months when they are safely removed with our organic remover.

**What makes it the best quality hair on the market?**

Our virgin European hair is 100% unprocessed so that it looks and acts just like your own hair. This means that it stays soft and manageable and matted hair won’t occur after only a few washes.

**Can I color Invisi-Tab Hair Extensions?**

Yes, absolutely! One of the best benefits of Invisi-Tab Hair Extensions is that they are 100% customizable because they are 100% human hair. You can apply a color service, highlights, low-lights, balayage, and a perm service. Remy hair takes a color deposit only. We do recommend that your stylist choose as close a color as possible to the desired hair color.

**How long can I wear Invisi-Tab Hair Extensions?**

Generally, 8-12 weeks or up to 3 months, depending on the individual’s hair growth rate. This ensures that the extensions will continue to look fresh and close to the scalp. They should be removed by 3 months to ensure the extension bond remains seamless.

**How many tabs are needed to do a full head?**

It varies from person to person, depending on size and shape of head, however, 20-40 pieces of 1 ½” tabs are generally enough for a full head.

**Can hair be ironed, curled, and blow dried?**

Yes, unlike other extensions, our hair can be ironed, curled, blow dried, and permed, so feel free to style and customize as you would any natural human hair.

**What type of products can I use with my new hair?**

Shampoo, condition, and style as usual. With Invisi-Tab, you can even use dry shampoos. The only product type we don’t recommend using are serums, as their oily texture makes hair slippery for the extensions.

**Can Invisi-Tab Hair Extensions be reused?**

We recommend using new hair to ensure high quality, but because our hair is of such high quality, they can be re-applied up to three times.

**How are the tabs applied?**

Invisi-Tab Hair Extensions are easily applied simply by sandwiching a thin layer of hair between two tabs and press together. Each bond can be applied in under a minute and a full head can be done in about 30 minutes.

**How are Invisi-Tab removed?**

We have our own organic remover that was designed specifically to remove our extensions and bonds without damaging natural hair. We do not endorse or warranty any other form of removal. Our organic remover comes in a 4oz. spray bottle and safely breaks down the adhesive without damaging the hair.
